

- INTEGRATED QUICK-RELEASE FITTING OR MALE THREADED TIP ND 15 mm to ND 40mm

MAIN FEATURES :

- Meter valve with full bore 1/4 turn ball valve
- Indexing of the ball valve between Teflon PTFE seat guaranteeing total tightness
- Asymmetrical operating rod facilitating the opening and closing of the valve
- Possibility of easy connection to the meter without removing the connection thanks to the captive nut crimped to the tap
- Integrated quick-tightening connection for PE pipe guaranteeing a watertight connection
- Assembly safety on PE pipe favored by a triple claw ring
- Complete range from ND 15mm to ND 40mm for PE pipe FROM 25mm to OD 50mm
- Possibility of closing using an anti-fraud head, entry cover head or butterfly head
- Permissible operating pressure: 16 bars

TECHNICAL SPECIFICATIONS :

Body:	Brass CW 602N — CuZn 36Pb2
Tubular:	Brass CW 602N — CuZn 36Pb2
Captive nut:	Brass CW 602N — CuZn 36Pb2 drilled for sealing ISO 228-1 gas thread
Ball valve:	chrome-plated nickel-plated brass ball
Seal:	PTFE
Outlet connection:	quick-release fitting NF EN 1982 CW602N
