

## WATER CONNECTION ACCESSORIES

- Check valve

FOR CONNECTION ND 15 mm to ND 40mm

### MAINS FEATURES :

-This concept, placed downstream of cold-water meters, is intended to protect drinking water distribution networks against the return of polluted fluids.

-Connection: inlet and outlet threaded to the British Standard Pipe, eliminating any positional constraints during installation.

-Reduced load losses by using a spring of obturator, ensuring a fluid passage greater than the nominal diameter

-Permissible operating pressure: 16 bars

-Fluid temperature: max 40 ° C

### TECHNICAL SPECIFICATIONS :

<b>Body:</b>	Brass CW 602N — CuZn 36Pb2
<b>Obturator:</b>	Polyoxymethylene ISO 1043-1
<b>Spring:</b>	Stainless steel
